THE BRANDON SUN.

BRANDON MAN. OCT. 30, 1884

F. Torrance, B.A., V.S., and family arrived home on Tuesday last from their trip south.

There will be a meeting of the Agricultural Society on Saturday next, at the office of the Secretary.

On Tuesday last there were 19 cars of wheat shipped from this station. There is now an average of from twelve to fifteen cars a day shipped.

Mr. McIntosh, of the Boomber House, has been enlarging and repairing his stables, which, when finished, will be warm and comfortable for the winter.

A man named Aird has been arrested at Winnipeg on the strength of a message from Chief McMillan. It is charged that he obtained money under false pretences.

Mr. J. Landers the popular yard-master at this point has been given the position of baggage-man on the road, his place in the yard for the present remaining vacant. Mr. Peters has the additional duties.

The pulpit of the Methodist church was filled on Sunday morning last by Mr. Nixon, of Winnipeg, and in the evening by the pastor, Rev. Mr. Betts, much to the pleasure of the congregation, Mr. Betts having scarcely recovered from his recent illness to resume his work.

Miss Lang, teacher of the second department in our public schools, will leave on Saturday next, to commence her training at the Normal School, Winnipeg. Miss Nichol, of Souris City will take her place in the school here.

The laborers are still at work laying the pipe to connect the tank at the C.P.R. roundhouse with the one at First Street, from which water will be drawn to supply the one at the roundhouse. The distance is about three fourths of a mile.

With wheat at from 40 to 50 cents per bushel should the millers not evince some desire to reduce the price of flour to something like a proper figure in the face of these prices. Since writing we have heard that flour has been reduced to $2,50 per bag.

The Assizes open on Tuesday next, Judge Taylor presiding. The docket is an exceedingly long one, and will last about three weeks. There are four criminal cases, among them being one for each of the following offences: manslaughter, forgery, malicious injury to property, and perjury.

Mr. Herron, who ran the skating rink last winter, is erecting a new rink on the corner of Rosser Avenue and 7th St. It will be more convenient than the one occupied by him last winter, and as he is well suited for the position of manager of such an institution, he will be well patronized this winter.

Our old friend, W. A. Hastings, Esq., manager of the Ogilvie milling Co., has sent us a bag of their family flour Having given it a fair trial, one of the best house wives in the Province—the wife of the editor—says it is of extra quality and superior to any she has used in this Province, and that means it is superior to any made. It is sold at $2.50 per sack.

SERIOUS ACCIDENT AT BIRTLE

As Mr. Thos. Patterson, of the firm of Patterson & Gibson, Cabinet Makers, of Birtle, was returning from Elkhorn with a load of organs for the firm, in going down the hill, at the crossing of the Assiniboine, his horses ran away, breaking his leg between the knee and hip. He was taken home the following day (the 25th inst.) but we have not been able to obtain any further particulars.

THE CITY FATHERS.

At the Council meeting on Monday evg., there were present, the Mayor in the chair and Ald. Sifton, Durst, Bucke, Hughes, Lee, Clementi-Smith and Cameron. They all evinced considerable interest in the proceedings. The meeting was a short one, an adjournment being made shortly after nine o'clock.

DISSECTING AN OLD BUILDING

At the rear of the Masonic Block lie the remains of the building that was fired about a year ago, and since that time have caused more or less anxiety to the Aldermen and the citizens generally. It has last been decided to get rid of this nuisance, and if the owners, on being properly notified, do not have it removed, it will be the duty of the fire inspector to have it done. To this action, however, Ald. Clementi Smith felt as if he should object. It might not be prudent to express the opinion that it makes excellent firewood, that the Alderman is land agent, that the land office is in the Masonic Block, and that since its removal there the remains are gradually growing less. In fact the Alderman expressed his conviction that without any outside assistance the probalities were that there would not be a vestige of it left by spring.

MEETING OF REEVES.

There was held a meeting of the reeves of the several municipalities to be held in the city hall, on Tuesday last to consider of the propriety of the school districts also the Agricultural [illegible]. The Council have granted the use of the hall at the request of Mr. Wellwood.

TAKING A NAP.

Some time last summer an old man by the name of McFarlen was fined on the charge of being found drunk on the street. He has paid the fine and now asks the city fathers to return it, claiming that his father was not drunk but only taking a nap, a habit he has fallen into of late years. The communication was filed.

THE GRAVEL PIT.

Messrs. A. and A. Gilbert, of Winnipeg, the contractors who undertook the settlement of the dispute [illegible] for damages against the city, by the owners of the corner of Princess and First street, have written the Council through Col. Boom, arbitrator, and to the Council requiring the City Solicitor to commence the [illegible]. He has been so instructed.

A CATTLE FAIR.

Ald. Durst at the Council meeting on Monday evening last, introduced a motion, seconded by Ald. Sifton to the effect that it was necessary to establish a cattle fair, at the same time naming a committee to look into the matter and report at the next meeting. The probabilities are that such a fair will be established, to be held quarterly, the first to be held before Christmas. The motion was carried. The establishment of a cattle fair, as has previously been pointed out by THE SUN, is a matter of vital importance to the farmers of this district, since the wheat crop, or rather its price, is something on which dependence is not always to be placed.

RAILWAY MATTERS

Communication Between Southern Manitoba and Brandon.

The Aldermen Unanimous and a Public Meeting to be Held.

The railway ball was set rolling at the Council meeting on Monday night, by the reading of a communication from Mr D. Stewart, of Pilot Mound, asking the co-operation of the Council towards developing a scheme for the building of a road from Brandon southwesterly through the counties of South Cypress, Derby and Lorne to the International Boundary, there to connect with the American system of railways. The communication stated that Mr. Hill, of St. Paul road, had informed Messrs. Greenway, M.P.P. and Thompson, the delegation appointed by the Southern Manitoba people to interview him on railway matters, that it was the intention of his Company to reach the Boundary as soon as possible, making Brandon the objective point. The communication also contained a copy of a resolution passed at the meeting lately held at Crystal City, in which it asked that the Councils in the municipalities above-named appoint delegates to meet at Pilot Mound on the 7th November to discuss the advisability of applying to the Local Legislature for a charter for a road built from Brandon to run southeasterly through the counties indicated. Mr. Stewart requested the Council to appoint a delegation to attend the Pilot Mound meeting. Ald. Bucke referring to the communication, moved, seconded by Ald. Hughes, a resolution, naming a committee of citizens and aldermen

In making the motion Ald. Bucke said it was his wish to hear expressions from the Aldermen. He was of the opinion that there was nothing so essential to the city's prosperity as the railroads that would centre here, and he thought it important that this matter should be well considered. He was aware that there was already a committee, but on looking at the names comprising it he was inclined to think that it was out of existence as its members were so apathetic to railway matters, and it would be better were an entirely new committee appointed.

The Mayor said that it would be improper for the Council to take the privilege of appointing citizens on a committee.

Ald. Cameron thought it would be more satisfactory to call a public meeting of citizens.

The Mayor was also of this opinion, and after some general discussion, Ald. Bucke with the consent of his seconder, withdrew his resolution, and one was introduced and carried asking the Mayor to call a public meeting on Friday evening next, in the city hall, for the purpose of discussing the different railway schemes now being projected.—Action on Mr. Stewart's communication was deferred until the meeting.

Affairs in the Northwest.

The railway now about owns the country. And this additional bonusing arises entirely from the invuitous monopoly clauses of the Canadian Pacific bargain. If branch railways were allowed out of the province, there would not have been any necessity for a cent of new grant. The railways whose charters were disallowed, and other railways, would have been completed and running ere this. The country would have been opened up, and the settlers would have had the full reward of their labor in good returns from their lands. It would have repressed much of the ill advised speculation in the Northwest and placed the prosperity of the country on a sound and lasting basis. But the result is that monopoly still rules, the land still is gobbled up by the railway companies, while the settlers must not only pay the highest price the land will fetch, but to get the products of it to market, he must pay about every cent profit there is for his work.—Brantford Expositor.

THE SASKATCHEWAN COAL.

Mr. Foreman, manager of the Saskatchewan Coal Mine, has sent a load of it to Winnipeg for experiment. The article is for years decidedly superior to that of last season, and, being thoroughly screened before leaving the mines, contains only the larger and harder portions. We have given it a fair test, using it in a box stove, a base burner, and a stove claimed to be specially adapted to its use. In all it burned well, there being not a particle of waste. We also used it for our engine, and found it to get up steam and retain it longer than wood, at a far less cost. Mr. J. Bradley the well known teamster has the agency at this point.

WINNIPEG GRAIN STANDARDS.

The following are the inspection rules lately by the examining board of the Winnipeg Board of Trade, and which will, in all probability, be adopted in full at the next meeting of the Board:

The following are the rules of the Winnipeg Board of Trade, now in force, governing the inspection of wheat:

No. 1 Hard Spring Wheat. Shall be red fyfe wheat, containing not more than ten per cent. admixture of softer varieties; must be sound, well cleaned, and weigh not less than 56 pounds to the measured bushel.

No. 2 Hard Spring Wheat.—Shall be red fyfe wheat, containing not more than ten per cent. admixture of softer varieties; must be sound, reasonably clean, and weigh not less than 56 pounds to the measured bushel.

No. 1 Spring Wheat.—Must be sound, well cleaned, and weigh not less than 58 pounds to the measured bushel.

No. 2 Spring Wheat.—Must be sound, reasonably clean, and weigh not less than 56 pounds to the measured bushel.

Rejected Spring Wheat.—Shall comprise all wheat fit for warehousing but too low in weight or otherwise unfit for No. 2.

Note A.—All good wheat which is slightly damp shall be reported "no grade" with the inspector's notations as to quality and condition.

Note B.—All wheat that is in a heating condition or too damp to be considered safe for warehousing or that has any considerable admixture of foreign grain or seeds, or is badly bin-burnt, whatever grade it might otherwise be, shall be reported "condemned" with inspector's notations as to quality and condition.

Note C.—Wheat containing any admixture of "goose wheat" shall be graded "rejected."

Note D.—Wheat containing smut or sprouted kernels, in however slight degree, shall, in no case, grade in its class as high as No. 1.

CITY RETAIL MARKETS

During the past week, the quantity of wheat brought into the city has been something remarkable. For some days it kept about the same figures, but the tendency has been a gradual decline until yesterday it reached 42 cents per bushel. The blank expression of the farmers' countenances when the decline in price was announced may well be conceived. McMillan has stopped buying, owinging to the expected close of navigation. It is expected that the price will go still lower. It is affirmed by the buyers that the price is ten cents per bushel less than if the C. P. R. could supply cars promptly.

IN EQUITY

IN CHAMBERS } The Seventh day of October A.D. 1884.

IN THE MATTER

Between [illegible] and Company of Adventurers of England trading into Hudson's Bay,

Plaintiffs.

And

[illegible] Chaster and [illegible] L. Sifton,

Defendants.

Upon the application of the plaintiffs, and upon hearing read the affidavit of Edward Howard [illegible] and upon it appearing by sufficient evidence that the said defendant William Wastell is out of the jurisdiction of this Court.

It is ordered that a copy of the Bill of Complaint filed herein be forthwith served upon the said William Wastell personally, or in such other manner as may be directed by the Master in Chambers, and that the said defendant William Wastell do cause an appearance to be entered herein within [illegible] days after such service, and in default thereof that the said Bill be taken pro confesso against him, and that a copy of this order be published in the Manitoba Sun, a weekly paper published in the City of Brandon, once in each week for six successive weeks, the first publication thereof to be within [illegible] days after the date of this order.

And it is further ordered that an office copy of this order be forthwith posted by the Plaintiffs' Solicitors in the Office of the Clerk of the Crown and Pleas at Winnipeg, and that an office copy of the Bill filed herein be forthwith posted by the Plaintiffs' Solicitors in the Office of the Local Master at Brandon.

And it is further ordered that the said defendant William Winterbottom Wastell do cause an appearance to be entered herein within [illegible] days after the service of this order upon him, and in default thereof that the said Bill be taken pro confesso against him.

And it is further ordered that an office copy of this order be posted by the Plaintiffs' Solicitors in the Office of the Clerk of the Crown and Pleas at Winnipeg, and that an office copy of the Bill filed herein be forthwith posted by the Plaintiffs' Solicitors in the Office of the Local Master at Brandon
