

In Honor of the QUEEN

A JUBILEE SALE -
Saturday and Monday.

We want to see all loyal subjects well dressed on Jubilee Day.—We're straining a point as an inducement to have it so. We want to show that we're in sympathy with your requirements in every detail. If you want anything in the way of Clothing, Hats, Shirts, Ties, etc., we will let you off with as little cost as is consistent with honest goods. We don't want the earth, we can live without much profit these two days.

Come with the crowd to

Items of Local Interest.

The Labor Party holds its regular semi-monthly business meeting on Thursday evening at 910 Main street.

The company that have been playing in the McIntyre rink lately will move to River park the first of next week.

Mr. Ash Kennedy, the well known locomotive engineer, has been confined to the house the last few days through illness.

The window of A. G. Morgan, the boot and shoe man, is quite an artistic jubilee display. A diamond formed of white satin slippers, enclosing a large portrait, is a pretty feature. If the merchants of Main street but try to make as good a display it will add greatly to the beauty of the celebration.

H. McWilliams, C. P. R. fireman, who resides on Logan street, met with a painful accident at Rennie during Sunday evening's electric storm. He was on the outside of the car, when he became stunned by the lightning and to save himself from falling put his arm through the window, cutting the wrist very severely.

The Laundry Workers.

On Wednesday evening last the laundry workers held their second meeting in Trades hall. There was not a large enough representation present to formally organize, but those present felt that another effort should be made. It was gratifying to see half a dozen young ladies present and it is hoped by the next meeting a large number of the fair sex will be present.

A committee of young ladies composed of Misses Nellie MacKay, Sarah Johnson and Gertie Johnson, were appointed to wait on the rest of the girls employed in laundries in the city. They consented to act and no doubt will have a large number present next meeting.

As the employers are in sympathy

with the movement there is no doubt a good union will be formed.

Another meeting will be held on Wednesday evening in Trades hall at 8 o'clock.

Typos.

Work continues fairly good in the city, but is not likely to improve beyond its present condition before fall.

T. A. Burgess returned from a trip of six weeks' prospecting and bear shooting in Lake of the Woods district. He now fills the customary position in front of the key board.

John Appleton has gone out to Killarney for a few days holiday. He will stay away during the celebration; says he would prefer to do so.

Jas. Mitchell left for Minneapolis the beginning of the week.

The Brandon Times issued a Jubilee number that for enterprise and finish would not be at the bottom of the list if counted in with the city papers.

The last issue of the Pythian gives notice of enlargement in its future issues. It carries the label on the cover.

The Carpenters.

The work on the decorations of the parliament buildings and the arches has furnished considerable employment for carpenters, night and day.

A large number of men are employed on the Exhibition grand stand.

The roof is being put on the addition to Robinson's store.

During the past week, we are sorry to record, three ex-members of 343 lost their wives, Geo. Mould, Geo. Knux and Jas. Coates.

"Bidders must state in their bids that only union labor will be employed." Such is the announcement contained in an advertisement of the board of education, of Wheeling, W. Va., for bids for the erection of a new school house.

The Firemen.

A fireman writing the editor of THE VOICE has the following to say regarding the order of which he is a member:

At Port Jarvis, N.Y., on December 1st, 1873, the Brotherhood of Locomotive Firemen were organized for the purpose of uniting locomotive firemen and elevating their social, moral and intellectual standing, and for the protection of their interests and the promoting of their general welfare, in which respect they have been eminently successful. The interests of the firemen and their employers being identical, they recognized the necessity of co operation and it is the aim of the organization to cultivate a spirit of harmony between them upon a basis of mutual justice.

The fact that their vocation involved ceaseless peril they have recognized, as a duty to themselves and their families, to make suitable provision against those disasters which almost daily overtake them in the performance of their duties, the necessity of protecting their interests as firemen, of extending to each other the hand of charity, and being sober, industrious and honorable men, became self evident.

The Brotherhood has adopted as its cardinal principles the motto, Protection, Charity, Sobriety and Industry.

As an international organization the Brotherhood, ever since its inception has successfully resisted opposition from all quarters and many attempts were made to wreck it as an institution. At certain periods of its existence the outlook for the future was not promising, but by conservative leadership and sound business management it has grown to such

proportions that it is classed today as one of the greatest of trade unions. At the present time there are in Canada, United States and Mexico 513 lodges, with a membership of over 23,000, with headquarters at Peoria, Illinois.

The total amount of insurance carried by members and all in their own organization aggregate \$33,000,000.00. In sixteen years \$3,836,621.20 has been paid in death and disability claims to members, widows and orphans. For the year ending July 1st, 1896, the amount disbursed for death and disability claims was \$329,000.00.

In Canada alone there are 32 lodges with a membership of 1,460. There have been 112 death claims paid in Canada, amounting to \$160,500.00, also 18 disability claims amounting to \$26,000.00, making a total of \$186,500.00 in sixteen years that has been paid in Canada.

At the last convention in Galveston, Texas, nearly \$33,000 was distributed as charity to crippled members, widows and orphans, whose claims did not come under the beneficiary law, but were considered worthy by the convention.

The average cost of insurance is \$1.40 per \$100.00 for \$1,500.00 and the full amount is paid upon the total or partial loss of the eyesight, loss of a foot or hand, or being afflicted with Bright's disease of the kidneys, or permanent paralysis. Over 90 per cent of the Locomotive Firemen in Canada belong to the organization.

The Locomotive Fireman's Magazine, published in connection with the order, is a leading journal in the mechanical and labor world, having a circulation of over 30,000 copies per month, and is sent to all parts of the world.

Sporting Gossip.

It may not be generally known among the admirers of association football that some tolerably good samples of that exciting game may be witnessed at River park, every Saturday evening. It would seem so, at any rate, as the attendance a week ago was very slim indeed, only some 50 being present. The bill of fare read Nationals vs. West Ends, and a very creditable exhibition was given. The Nationals profited some from their previous experience with the Y.M.C.A. and made several changes in the makeup of their team, the forward line particularly being strengthened. In the first half the West Ends played up splendidly, and crossed over a goal in the lead, thanks to the poor shooting proclivities of the Blue Coats' forwards. In the second half things wore an entirely different hue; Crearer, the West End's goalkeeper, being bombarded for some little time; but he stood the test well, relieving splendidly. Walker, for the West Ends, received the ball from Burns on the fly and registered No. 2 for the W.E's. After this the Nationals had it all to themselves for some time, and scored five goals rapidly, though one from a corner kick should not have been credited them, as it touched no one in passing through. Taking the game all through it was well worth seeing, the Nationals had the best of it as the score 6-2 indicates. The forward line of the West Ends is a dandy, and a little more support from the half backs would have changed the score materially. McWhirter, the new National forward, did not make a favorable impression among the spectators. His playing was fair, but his language to the referee, to say the least, was not parliamentary and the Nationals should think twice about allowing him on a team again.

This evening the game at the park is between Y.M.C.A. and the West End teams; 7 o'clock; 10 cents.

The Y.M.C.A. team won their game at Selkirk last Saturday, 6-1, doing better than I predicted.

The Nationals go to Selkirk today and judging from the past play of the two teams the game will be a very close one.

In lacrosse circles the past week, the Winniegs accepted defeat from the Rat Portage aggregation at the mining town, the score being 4-1.

Last Saturday's cricket results were as follows: Norwoods 5, vs. C.P.R. 57;

MORGAN.

Many choice Bargains on the Bargain counters for a few days. Children's \$1.25 Shoes for 75c. The 75c kind for 50c. Girls' \$1.75 Pat. Tip Donzola Button for \$1.10. Ladies' \$3 Donzola Button for \$2. Ladies' Tan Outing Shoes for 95c. Mother Hubbard House Slippers for 65 cents. Come and see.
